Subject: Dworshak FFCA Status Report/Notification (UNCLASSIFIED)

Classification: UNCLASSIFIED

Caveats: NONE

Chris Gebhardt:

U.S. Army Corps of Engineers (USACE) and U.S. Fish and Wildlife Service (USFWS) (in coordination with the Nez Perce Tribe) are working on a status report due to the Environmental Protection Agency (EPA) Region 10 pertaining to the progress, milestones, etc. relevant to the status of the Federal

Facilities Compliance Agreement (FFCA) pertaining to Dworshak Fish Hatchery. The status report is due to EPA within one year of the effective date of the FFCA; which from my recollection last year we decided to be end of the fiscal year (September 30th). In an August 17th phone conversation with you about the emergency fish transfer due to water supply issues, USFWS and USACE touched on the requirement of a status report and funding issues. USACE and USFWS may be able to get the report to EPA by September 30th, but with some unforeseen circumstances, such as the water intake line failure, we would like to request a short extension of 30 days to get the report to EPA. Also, please let me know if you would like the extension request to be made in writing via U.S. mail.

Sincerely;
Damian Walter
Walla Walla District ECC
